Intuition & Intention
Gravitations of the Spirit

When we first celebrated the 'Sacred Self in 2020', as part of our 10 days recognitions and activities - *Intuition was central.*

Let's talk about Intuition

- * What does it feel like? Look like?
- * How does Intuition differ from Psychic?
- * Intuition and Intention - What directs us?

Believing in an "intrinsically psychic (and sacred) world" also comes with a recognition for traffic all the *highway of information* in terms of Faith, Religious diversity and philosophy about lets just say 'everything'..

The "stuff of intuition" fits very much with the *climate and conditioning* of all of the above however there may be strong interpretations of it across and looking backward at experiences, stepping outside of them and then leaning on someone else's shoulder, saying forthrightly ' Did you see what just happened, here"? *Love energy.*

Intuition, as most people would term it - is *heart-felt*.

Felt recognitions with Spirit in mind is impacted trajectory involving the movement and creation.

IE. My Intuition ' showed me ' (Spirit nudged you? I was led by God?)

The "I recognise in myself I have a gut instinct to" (What am I responding to here?).

Many believe that Intuition is familiar psychic information in a trajectory and with transit - How we respond is a chosen recognition and usually involves discovery weave around what is out Integrity less Spirit pushes.

Our Intentionality is one of the most vibrant parts of our Soul Discovery in that it allows us to recognise what charms us and to be forthright and with strength. The words Intuition & Intention don't look very different but they are quite different in meaning.

Activity: Reflect on your Intuition.

Personally:

- * How do you define it?
- * What examples do you have in your day?
- * With Intention, how do you respond to "your knowing"?
